To Whom It May Concern:

Let this letter stand as my highest recommendation for the quality of work performed by Complete Aluminum at the Park Shore Tower Project in Naples, Florida.

Facchina was tasked with removing the entire exterior of the building including the roof, and approximately five hundred (500) windows in just twenty two (22) months, while the building was occupied. Not only were we successful, but with Complete Aluminum's help we were able to finish the entire building in just seven (7) months. Often with fast paced projects, there is a struggle with incomplete work or lengthy punch lists, but not this time. Due to Complete Aluminum's work ethic, excellent field staff, and despite having a very demanding Architect, and owner, Complete Aluminum's punch list for the completed building consisted of five (5) minor items, that were fixed the day they were noted. All pressure testing was completed the first time, every time with no leaks. I would not hesitate to use them again. If you have any questions please do not hesitate to call me.

Sincerely,

A handwritten signature in dark ink, appearing to read "Joe McGinnis". The signature is fluid and cursive, written over a faint dotted grid background.

Joe McGinnis
Senior Superintendent

JM/rm
