To Whom It May Concern:

Complete Aluminum & Screen, Inc. recently completed an extensive repair job here at the Surf & Racquet Club, located on Siesta Key. The job included resealing and repairing 100% of the windows in 3 of our six buildings, totaling nearly 800 single hung assemblies. Additionally, Complete Aluminums' crews rebuilt 165 of our large glass lanai enclosures.

Tom Senevy came to us with a plan for our needs last year and commenced this job last fall. His crews were always on time and prepared with the appropriate tools and supplies. Tom's crew had to work in both occupied and unoccupied units as well as under some tight time constraints and this facility is a vacation resort. The crews were always uniformed and polite to our guests as well as aware that they needed to be neat in each condominium in which they worked.

Sarasota Surf & Racquet Club is extremely pleased with the job done by Complete Aluminum and would certainly consider them for bid contracts in the future.

Respectfully Submitted,

Vicki Richardson, General Manager
